Subject: QFN and DFN Package Lead Finish Product Discontinuance Notice

Dear Customer,

Analog Devices Incorporated (ADI) is obsoleting the tin lead (SnPb) finish option of the attached list of products in QFN and DFN packages. The reason for this discontinuation is that our packaging subcontractors no longer support the tin lead finish process. These products are still available with our lead-free matte tin terminal finish as a replacement. The replacement part numbers include the suffix #PBF, #TRPBF or #TRMPBF and are RoHS and WEEE compliant. If you would like more information concerning our RoHS program please visit:

http://www.analog.com/media/en/quality/RoHS_Compliance_General_Info.pdf

We are offering a Last Time Buy (LTB) in accordance with the schedule below in order to support projects that you have in production;

LTB Orders Accepted Starting: August 13th, 2018

Final Orders Accepted: August 31st, 2019

Final Shipments: August 31st, 2020*

* Orders are non-cancelable and non-returnable. Actual delivery dates will vary due to individual manufacturing and scheduling requirements. Standard order minimums apply.

Thank you for your support and for your efforts to qualify our matte tin finish products. Please contact your local sales representative for more information and for any assistance required, <http://www.analog.com/en/support/technical-support.html>.
