Certificate of Compliance

Restricted use of Hazardous Substances

(EU RoHS Directive, 2002/95/EC)

To whom it may concern:

MWT has received inquires for information concerning the use of certain hazardous substances and the content of certain substances which may be present in products provided by MWT.

In 2003, the European Union (EU) enacted environmental legislation restricting the use of certain hazardous substances in electrical and electronic equipment.

To ensure compliance with this regulation MWT has generated this certification of compliance as a response to all inquires. The following hazardous substances are not contained in any product produced by MWT:

- Lead (Pb),
- Mercury (Hg),
- Hexavalent Chromium (Cr),
- Cadmium (Cd),
- Polybrominated biphenyls (PBBs) and
- Polybrominated diphenyl ethers (PBDEs)

If you have questions regarding this matter, please contact the MwT Sales department at 510-651-6700 x104.

Sincerely,
Don Apte
Director of Sales and Marketing
