

Discontinuation of PAN1321 Family

PDN.PG13315.05212014-1

5/21/2014

Effective Date:	May 22, 2014			
Last Time Buy Date:	August 1, 2014			
Last Time Ship Date:	January 1, 2015			
Discontinuation Details:	All members of the PAN1321 family of RF modules and development gear, including the PAN1321, PAN1321i, PAN1311 and EVAL_PAN1321i will be discontinued.			
Suggested Replacement:	The PAN1322 is the replacement for the PAN1321 and PAN1321i. The EVAL1322 replaces the EVAL1321. Replacement part numbers are fully hardware compatible with their predecessors. Legacy code may require modification to accommodate additional commands and parameters that have been added to the PAN1322 command set.			
Affected Part Numbers:	Discontinued		Replacement	
	Series	Part #	Series	Part #
	PAN1321	ENW89811K4CF	PAN1322	ENW89841A3KF
	PAN1321i	ENW89811A6KF	PAN1322	ENW89841A3KF
	PAN1311	ENW89810K5CF	No Replacement	
	PAN1321	EVAL_PAN1321i	PAN1322	EVAL_PAN1322
	PAN1321i	EVAL_PAN1321i	PAN1322	EVAL_PAN1322
	PAN1311		No Replacement	
Datasheets:	See Attached			
Notes:	Panasonic's policy and commitment to our customers as a module manufacturer is to continue producing parts for a long as there is demand in production volumes. We feel that the replacement parts offered in this discontinuation notice achieve our goal, but we understand that some customers may be unable to accept a replacement part due to regulatory issues. For this reason, Panasonic will consider extending production beyond the Final Shipment Date, provided the customer is willing to place non-cancellable order for their project's projected quantity in advance of the Last Time Buy date. Terms for an extended deadline production order may be discussed with your Panasonic account manager.
