

CHANGE NOTIFICATION

NOW PART OF

Analog Devices, Inc.
1630 McCarthy Blvd., Milpitas CA
(408) 432-1900

June 21, 2017

Dear Sir/Madam:

PCN# 062117

Subject: Notification of Top Mark Improvement for GW44 (44-Lead Plastic SSOP) Package from Ink Mark to Laser Mark

Please be advised that as a part of our continuous quality improvement program we will be converting the top mark for GW44 (44-Lead Plastic SSOP) package from ink top mark to laser top mark. Laser mark is more uniform, consistent and has better through put in assembly as compare to ink mark. Besides this change, no functional, parametric, mechanical, or datasheet specifications are affected and the component bill of materials remains unchanged. Similarly, there are no changes associated with the package footprint, PCB layout or product top marking layout, so the customer applications will be unaffected. The affected parts numbers are listed as below:

List of Affected Part Numbers:

LTC1343
LTC2704-12
LTC2704-14
LTC2704-16

Please note that the customer may receive products with either ink mark or laser mark until the products with ink mark are depleted.

This change is effective immediately. Should you have any further questions, please feel free to contact your local Analog Devices sales person or you may contact me at 408-432-1900 ext. 2077, or by E-mail JASON.HU@ANALOG.COM.

Sincerely,

Jason Hu
Quality Assurance Engineer
