Product Change Notification

PCN-FDC-6424-2020

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
FDC - Field Device Connectors	ABQ	Product Change Notification	Notify Distributors and Field	12/23/2020

The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

The tape-on-reel packaging of unshielded M8 SMD items has been changed slightly to make the feed-in process for SMD components smoother. The dimensional changes are shown in the attached document. Both the pocket depth and also the geometry of the pocket have been optimized to ensure the stable fit of the components in the tape-on-reel packaging. The insulating bodies now sit higher in the tape-on-reel packaging, therefore optimizing the gripping or suction action. This change has no effect on the technical properties of the connectors. The timely implementation of this change is therefore necessary. If you have any questions or need our support due to this changeover, contact the sales team responsible.

Stock Status

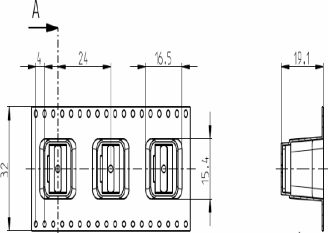

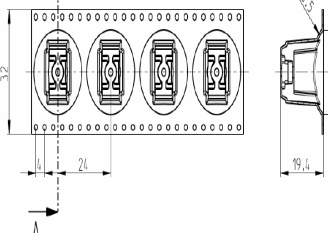

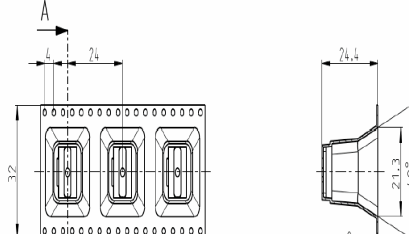

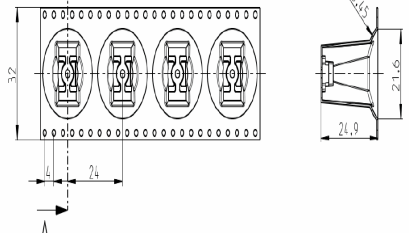

Can existing stock still be used?
Is mixture of stock acceptable?

Transaction Dates

Date modification goes into effect from Germany:	1/1/2021
Expected first shipment (from Phoenix Contact) of the modified products(s):	1/1/2021
