Change Notification of PCB Manufacture of CU20025-UWxx

Dear Customers,

We thank you very much for your continuous patronage of Noritake VF Display products. We would like to announce that a manufacture of print circuit board(PCB) is going to be changed to reduce the production lead time of PCB, as follows.

Noritake product number :

- CU20025-UW1J
- CU20025-UW1J-03
- CU20025-UW1J-04
- CU20025-UW1JT
- CU20025-UX1J

The change component : Manufacture of PCB

Due to the change of the manufacture, the marks of PCB are changed, as follows.

| | Present PCB mfg. | New PCB mfg. |
|----------------|---|--|
| Manufacture | SANWA ELECTRONIC CIRCUIT Co., Ltd. (UL File No.: E38344) | RITA Electronics, Ltd. (UL file No.: E95993) |
| UL Mark. |  |  |
| Material | CEM-3 (Glass composite) | FR-4 (Glass epoxy) |
| Marking on PCB |  |  |

Reason of the change : Improvement in production L/T of PCB

Technical Note : The wiring on the PCB is same.

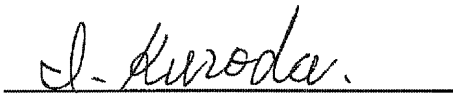

Product Number and Data sheet : same as present (No change)

Schedule of change

: Switch it as soon as the change procedure is completed.
(Running change)

If you need additional information or request, please feel free to contact the sales person within 30 days after receipt of the notification.

Best Regards,
