

Technical Datasheet

Safety Warning Tapes RoHS Compliant BERST Series (Striped Colored Tapes)

Safety Warning Tapes are made of PVC with rubber-based pressure sensitive adhesive in all OSHA colors. They are available in solid or stripe colors. These safety tapes are designed to be used for floor or aisle marking in a manufacturing or warehouse environment.

APPLICATIONS: Industrial Facilities, Manufacturing, Warehouse, and Law Enforcement

TYPICAL PHYSICAL PROPERTIES ⁽¹⁾

Color	Black/White, Black/Yellow, Green/White & Red/White
Adhesion Type	Solvent Rubber
Material Thickness	6.5 Mil
Material	PVC
Adhesion	11 oz./in.
Elongation	200%
Tensile Strength	14 lbs./in.
Temperature Rating	60°C (140°F)
Length	18 yards or 36 yards
UNSPSC Code	31201503

⁽¹⁾ Specifications are subject to change at any time. If you have any questions, please contact us for the latest update.
