

Issue Date: June 13, 2019

Dear Valued Customer,

This notice is to inform you of a product change affecting selected items that you have purchased from Littelfuse.

Description of the Change:

We were recently informed by a key supply chain partner of molded sub-components, that in May 2019, molding operations were moved from one facility to another. The move was conducted without prior notification or approval from Littelfuse, Inc.

Reason for The Change:

- Supplier's reason for the change is capacity expansion resulting in moving to a larger facility.
- Parts are now being manufactured by the same supplier at one of their other locations (a few miles from the original location) using the same tooling, same machines, and same process parameters. Littelfuse has stopped shipment for all parts from the new supplier location and is working with the supplier to verify all components meet our dimensional requirements before restarting shipments – this will be an on-going process until we verify all components are acceptable.

Effective Date of the Change:

May 2019

What You Need to Do:

Littelfuse has stopped shipment for all parts from the new supplier location and is working with the supplier to verify all components still meet our dimensional requirements before restarting shipments – this will be an on-going process until we verify all components are acceptable. Shipments will resume as components are confirmed to meet Littelfuse specifications.
