## SECTION 6 — ACCIDENTAL RELEASE MEASURES

Personal precautions:	Ventilate the area with fresh air.
Environmental precautions:	Avoid release to the environment.
Clean Up:	Contain spill. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with detergent and water. Seal the container. Dispose of collected material as soon as possible.
