Description and purpose of change:	
Due to internal standardization, Würth Electronics Midcom will change the adhesive securing coil to header to meet Halogen-Free requirements.	
There will be no change in form, fit, quality or reliability of the product.	
Detail of Change:	
Adhesive securing coil to header will change from: Eccobond G-500 to: Loctite Ablestik G-500 HF	
Reliability / Qualification Summary:	
Process / Product approval is according to internal requirements released by the Total Quality Department and the Product Management Department.	
Similar parts are already built this way, no additional reliability or qualification testing will be performed.
