## Description of Change to the Customer:

This is the same revised product discontinuance notice described in PDN2133 issued on January 21, 2022.

This revision is to highlight Intel's recommendation that customers prioritize redesign efforts over performing a last-time-buy to fulfill post-discontinuance demand due to global supply uncertainty. Updated non-cancellable and non-reschedulable terms and conditions are also outlined in this revision.

Intel® is discontinuing Enpirion® Power Solutions – devices, evaluation boards (EVB) and USB communications I/F dongle. A complete list of device family ordering part numbers (OPNs) is listed in Attachment 1A-1B.

## Reason for Change:

Enpirion Power Solutions - devices, evaluation boards (EVB) and USB communications I/F dongle) are being discontinued due to Intel decision to exit the Enpirion power business.

## Customer Impact of Change and Recommended Action:

Intel strongly recommends that customers accelerate redesign efforts due to no line-of-sight supply available to support all LTB orders. Customers may perform a last time buy on the ordering part numbers (OPNs) impacted by this discontinuance notice, but Intel does not guarantee fulfillment of any last-time-buy orders. Fulfillment is contingent on global supply availability. There are no replacement devices available.

For more information and assistance, [including on redesign efforts](#), please contact Sales or Customer Service in your region.
