

Product Change Notification

TE Connectivity

Product Change Notification: P-22-023471

PCN Date: 13-OCT-22

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

WIRE SEAL,RUBBER,SENSOR, RED

Description of Changes

TE is changing the single wire seal material for part number 2098582-1 due to the base gum component obsolescence, for North America demand of trade customers and global interco demand. No impact to fit, form or function.

Reason for Changes:

Product improvement.The new seal material is considered next generation with enhanced hot tear strength. TE will start shipping the new seal material based on material availability. Both the current material and new material are considered to be equal in performance. This PCN does not require any TE part number changes, as agreed upon by TE and the using OEM s. TE production drawings will be updated to call out a major revision change to be used in tracking the change. OEM approvals are available and can be provided upon request. This change is considered urgent as there is a limited supply of the old material.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	31-OCT-2022
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments

Part Number(s) being Modified:

Part Number	Part Discontinued per PCN	Customer Drawing	Customer Part Number	Alias Part Number(s)	Substitute Part Number	Substitute Alias Part Number(s)	Description Of Difference
2098582-1	NO
