## Change in ordering code for MBA/SMA 0204, MBB/SMA 0207, MBE/SMA 0414 thin film leaded resistors - CECC version

**DESCRIPTION OF CHANGE:** To distinguish between CECC certified and non-CECC products, part number and product description of CECC certified products MBA/SMA 0204, MBB/SMA 0207 and MBE/SMA 0414 will change by introducing the variant "V" at the 8<sup>th</sup> digit of the part number and adding "CECC 06" in the product description. The product itself and production location (Sokolov, CZ Republic) will remain unchanged.

**CLASSIFICATION OF CHANGE:** Part numbering

**REASON FOR CHANGE:** As a part of optimization of leaded fixed film resistor portfolio, MBB/SMA 0207 and MBE/SMA 0414 with TCR = 50 ppm/K and tolerance = 1 % / 2 % / 5 % and MBB/SMA 0207 0R0 will also be produced in Loni, India to consolidate professional thin film resistors manufacturing. Since there will be no CECC certification of India-made products, the part number and name change becomes mandatory for CECC certified parts for differentiation.

**EXPECTED INFLUENCE ON QUALITY/RELIABILITY/PERFORMANCE:** None
