

5/28/10

In an effort to focus on more of Lumex's core competencies, I would like to propose the following for a graceful end-of-life for the ChromaLED Switch family (Lumex PN# CLS-XXX):

By June 30, 2010, all current Digi-Key CLS customers be notified that this entire product family is going to be end of life with no replacement by Digi-Key.

By July 31, 2010, Lumex will take all final orders at current minimums on any PN related to the CLS. By August 31, 2010 all outstanding inventory not associated with PO on the books with Digi-Key be returned to Lumex for credit.

Thank you for carrying this line for as many years as you did and I look forward to moving forward with some of our exciting new products together.

Best regards,

A handwritten signature in black ink, appearing to read "Richard T. Halliday".
