CMI-RJ45

CMI-SET8

CM-8

The CM-8 & CM-17 Coax Cable Mapper & Toners are designed to quickly find and identify multiple cables and easily map runs to and from a central cable bundle. They each include:

- Built-in tone generator
- Auto power off 30 minutes in "Tone" mode
- Tests for opens and shorts
- Auto power off 12 seconds after pass/fail results
- Their maximum cable length for testing is 4,000 feet
- Powered by two 3V CR2032 batteries

- Low battery warning light
- Maximum DC cable resistance 100 Ohms
- Live Voltage detection.
- CM-8 includes CMI-SET8
- CM-17 includes CM1-SET8 and CMI-RJ45
- CMI-SET8 & CMI-RJ45 also sold separately
