Product Discontinuation Notice

Dear Valued Distributor Partners,

As we continuously enhance our product portfolio, certain products will need to be removed from the distribution channel. This notice is being issued to inform you that the following parts need to be removed from your inventory, and will no longer be available for sale through distribution.

There will be no LTB offered, as there are no production customers through distribution for these products to the best of our knowledge. Please work with your ROHM contacts to return existing inventory to ROHM as soon as possible.

The LAPIS Semiconductor replacement series (ML621000) will be released to distribution partners during Q3 of 2018.

Your understanding and cooperation are much appreciated, should you have any questions, please feel free to contact us.
