PCC - PCB Connectors	AAA	Product Discontinuation	Notify Distributors and Field	5/23/2017

*Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review and acknowledge this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.*

#### Description for Product Discontinuation

It is always our goal to offer you state-of-the-art and up-to-date products. For this reason, it may be necessary from time to time to remove products from our offerings.

Therefore we intend to discontinue the articles MSTB(V)(A) 2,5/...G(F)-THT as detailed on the attached list.

You will still be able to order the mentioned products until October 31, 2017. The last ship date will be April 30, 2018.

The substitute article family CC(V)(A) 2,5/...-G(F)...THR... is available now. The replacement article family provides several advantages:

- The housing is made of LCP (Liquid Crystal Polymer)
- The pin length (measured from the housing bottom) is reduced from 3.23 and 3.9 mm to 2.0 or 2.6 mm
- The qualification regarding IPC/JEDEC J-STD 020 is improved to MSL 1.
- The packaging with a dry bag is no longer necessary.

The external dimensions of the headers do not change. The free space areas around the pins for the solder paste application as well as the layout specifications are not affected by this change. There are not any additional requirements for the SMD production process.

#### Stock Status
