Subject: Notification of a Part Number Change for MD1-9PH106

Dear Valued Customer

We are contacting you because you have a purchase order with ITT Cannon for part number MD1-9PH106. We regret to advise that this part number is no longer available and the replacement part number is MDV1-9PH106.

The difference between the two part numbers is the material of the connector shell body. The shell body material for MD1-9PH106 is green Diallyl Phthalate and the shell body material for the replacement part number MDV1-9PH106 is black polyester 30% glass fill. Both materials are qualified to Mil-DTL-83513 and are used interchangeably in Mil-DTL-83513.

You have the option to amend your purchase order to reflect the replacement part number at the same unit price or cancel your order at no charge.

If you have any technical questions you can contact me directly at 714-628-2067 or email me at dom.lecce@itt.com.

Sincerely,

Domenick Lecce
