Product Advisory #1356

VL-EPM-32

This is a formal notification that certain products supplied by VersaLogic Corporation are being discontinued. Our records indicate that your company has purchased one or more of these products in the past.

Please read this notice thoroughly to determine what impact this change may have on you in regards to your currently owned product or future purchases from VersaLogic.

Affected Products

Product	Change	Customer Options	Migration Option
VL-EPM-32p VL-EPM-32t VL-EPM-32v	Product end of life	See below	VL-EPM-15 VL-EPM-16 VL-EPMs-21 VL-EPM-24 VL-EPM-35

Customer Impact Summary

VersaLogic will be discontinuing these VL-EPM-32 products due to the discontinuance of key components. These include the Intel 855 Chipset, ICH4, 82551 Ethernet controller, and ADI's AD1981 Audio Codec. There is no second source or alternates available for the components that are being discontinued.

Please call VersaLogic's sales department to discuss products that might provide a suitable migration path, or to explore the transition purchasing options described below.

Pricing and availability of this product in the future are described below.

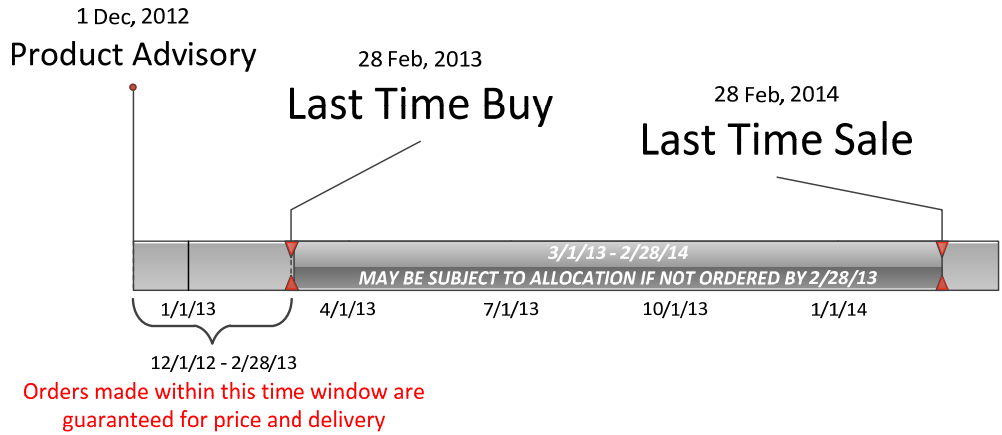

Product Transition Period

VersaLogic will offer a product transition period from February 28, 2013 through VersaLogic's planned EOL date of February 28, 2014. To ensure availability of these products for your application, please note the following guidelines:

- VersaLogic intends to maintain availability of this product in limited quantities through February 28, 2014.
- NCNR orders received by February 28, 2013 will receive guaranteed delivery per the customer's schedule. NCNR customers must take delivery before February 28, 2014.
- Product availability may be subject to allocation after February 28, 2013.

- Pricing is guaranteed at current levels for NCNR orders placed by February 28, 2013. Pricing for orders placed after February 28, 2013 will be based on market conditions.
- All deliveries must be taken by February 28, 2014.

Long Term Availability - Product Life Assurance Program

VersaLogic's Product Life Assurance Program can extend the life of a VersaLogic board for up to five years beyond the scheduled EOL. Customers who choose to participate in this expanded service offering can secure the continuity of their supply chain, reduce the costs associated with migration, and minimize issues associated with engineering change orders, regulatory filings, etc.

Contact your Technical Sales and Support Specialist for more information about this program.
