# 1. Introduction

Over their lifetime, Skywire® modems may incur several firmware updates provided from the module manufacturers. These updates will improve communication, fix bugs, and add features to the module and resulting modem functionality. NimbeLink will stay current with the latest firmware releases. It is recommended that customers also test and apply these new firmware versions when they become available. The Suppliers of the modules used in the NimbeLink Modems will from time to time EOL, End of Life, both FW and the module HW devices. NimbeLink will provide timely commercially reasonable effort to communicate these changes to our modem customers.

The NL-SW-LTE-TEUG, Skywire® modem is going End of Life (EOL) effective 08/31/2018.

Affected Part Number	Recommended Replacement
NL-SW-LTE-TEUG	NL-SW-HSPA

## 2. Migration Overview

NimbeLink's recommended alternative to the NL-SW-LTE-TEUG Skywire modem is the NL-SW-HSPA. Please consult the NimbeLink road map for a high bandwidth LTE alternative in Q4 of 2018.

## 3. Last Time Buy Date

NL-SW-LTE-TEUG devices are now Not Recommended for New Design, instead customers should use NL-SW-HSPA which supports 3G with 2G fallback, with GPS / GNSS.

NL-SW-LTE-TEUG Last Time Buy date is 07/31/2018 and Last Time Ship date is 12/31/2018.

Customers starting new designs should start with NL-SW-HSPA. For an LTE alternative, contact NimbeLink. [Sales@NimbeLink.com](mailto:Sales@NimbeLink.com)
