

## 5-Outlet Power Strip with USB-A Charging - Schuko Outlets, 220-250V, 16A, 3 m Cord, Schuko Plug, White

MODEL NUMBER: PS5G3USB

5-outlet power strip with USB-A ports distributes electricity to home and office electronics and charges your mobile devices.

### Features

**42.5 cm Power Strip Delivers Electricity to 5 Devices at the Same Time** Compatible with standard electrical equipment, this Protect It!® power strip features five Type F Schuko outlets and a durable white plastic housing. It is ideal for powering almost anything with a compatible plug, including computers and mobile devices to appliances and power tools.

**Charges 2 Mobile Devices with 2.1A of Shared Power** In addition to AC outlets, this power strip provides USB charging for up to two mobile devices, including smartphones, tablets and e-readers. The USB-A ports eliminate the need for AC adapters for charging cords, leaving outlets available for AC equipment.

**Designed to Give You Flexibility in Placing the Power Strip Where It's Most Needed** The power strip features a space-saving right-angle Schuko plug that helps you connect to a wall outlet located behind furniture that is placed flush against the wall. The plug is attached to a 3-meter power cord, which gives you more choices in placing the power strip away from the connected AC outlet.

**Premium Safety Features Designed for Protecting Your Valuable Equipment** The PS5G3USB features a lighted on/off switch that provides one-touch control over all connected devices. In the event of an overload, a 16-amp circuit breaker immediately shuts down the power strip to prevent equipment damage. The high-impact plastic housing is designed for the rigors of everyday use.
