**General Product Description:**

Micro A Relay. Second Source for PA6.6 used in base and coil body.

**Description of Changes:**

Dear Customer, we inform you in advance that we have approved a second source supplier (Ascend) for the PA6.6 used in the relay coil body and base in order to protect and assure TE capability to meet our customer demand. Current PA6.6 supplier is not guarantying the volumes requested by TE for FY2020 and already announced Force Majeure during FY2018 & 2019 causing disturbances on TE supply chain. The alternative validated material is already used in TE Automotive relays and in Micro A is currently used on the cover [PCN numbers: P-18-016341; P-18-016344; P-18-016556; P-19-017440; P-19-017442]
