RE: Force Majeure impacting the delivery of products

Dear valued Customer,

Much to our regret, the ability of Henkel to procure key packaging components for the products listed in the appendix below (the "Products") has been affected due to unforeseen circumstances beyond our control, namely the recent declaration of force majeure of one of our main packaging suppliers for those packaging components. As a result, Henkel is hereby declaring force majeure in connection with deliveries of the Products.

We are currently reviewing our ability to fulfil existing orders which have already been placed and confirmed for those Products, this may result in delivery delays for those orders.

Please be assured that we are in close contact with our packaging material suppliers and are using all commercially reasonable means to leverage our global supply chain to address this situation and support our customers. Additionally, we have initiated a process of investigating potential alternative sources. As such, we will need additional time to confirm any new orders.

At this time, we cannot predict how long these restrictions may last. Your account manager will contact you to discuss the status of current and future orders.

We regret any inconvenience this situation may cause, and we appreciate your patience and understanding during this challenging period.

Sincerely,

A handwritten signature in black ink that reads "George Thomas".

George Thomas
VP Regional SBU Head of Industrials Americas
Henkel Corporation

A handwritten signature in black ink that reads "Liu Yang".

Liu Yang
Director Product Management - Industrials Americas
Henkel Corporation

Attachment A
