June 2nd 2015,

To our valued customers,

Kester has discovered a potential issue in the following Kester part numbers from one specific production batch.

24-7068-6422
24-7068-6403
24-7068-6417
24-7068-6409
24-7068-6411
24-7068-6401

Lot: W151070
DOM: 04/28/2015

We believe that this lot may have a potential quality issue. We are proactively recalling this lot and will replace the material. We also have quarantined all the Kester inventory of finished product from this lot number. We are in the process of determining the root cause with great urgency and we will send you an update with corrective action.

Kester continues to be proactive in protecting our customers and delivering highest quality products. Please contact me or Customer Service if you have any questions or need more information.
