ABOUT US:

- French company founded in 2016, based in Nice (France)
- Strong experience in **Industry, Energy, HVAC** with patents in Energy Management
- **International team**, 7 spoken languages (FR, IT, PT, ESP, EN, RUS, UKR) to reach anybody
- +17 distributors worldwide
- 14 collaborators

VALUE PROPOSITION:

- IoT pain points:

TIME-TO-MARKET

INTEROPERABILITY

SCALABILITY

COST

SECURITY

SKILLS

→ **KHEIRON IoT Suite** : Design tool (IDE = IoT ToolBox), IoT platform, Mobile App, in White Label

→ For **Smart Building, Smart City, Smart Industry, Smart Energy, Smart Retail et Smart Agriculture...**

KEY FIGURES:

1500+

Use cases

25.000+

Devices/machines

650+

Decoded devices

10.000+

Users

70+

White labeled

ALL-IN-ONE MONITORING SOLUTION

1st step > Design

Your first IoT IDE*
> Mockup
> Proof of Concept
> Final use cases

Access to:
> Public libraries
> Private libraries

KHEIRON Studio

2nd step > Deploy, Monitor, Control, Analyze

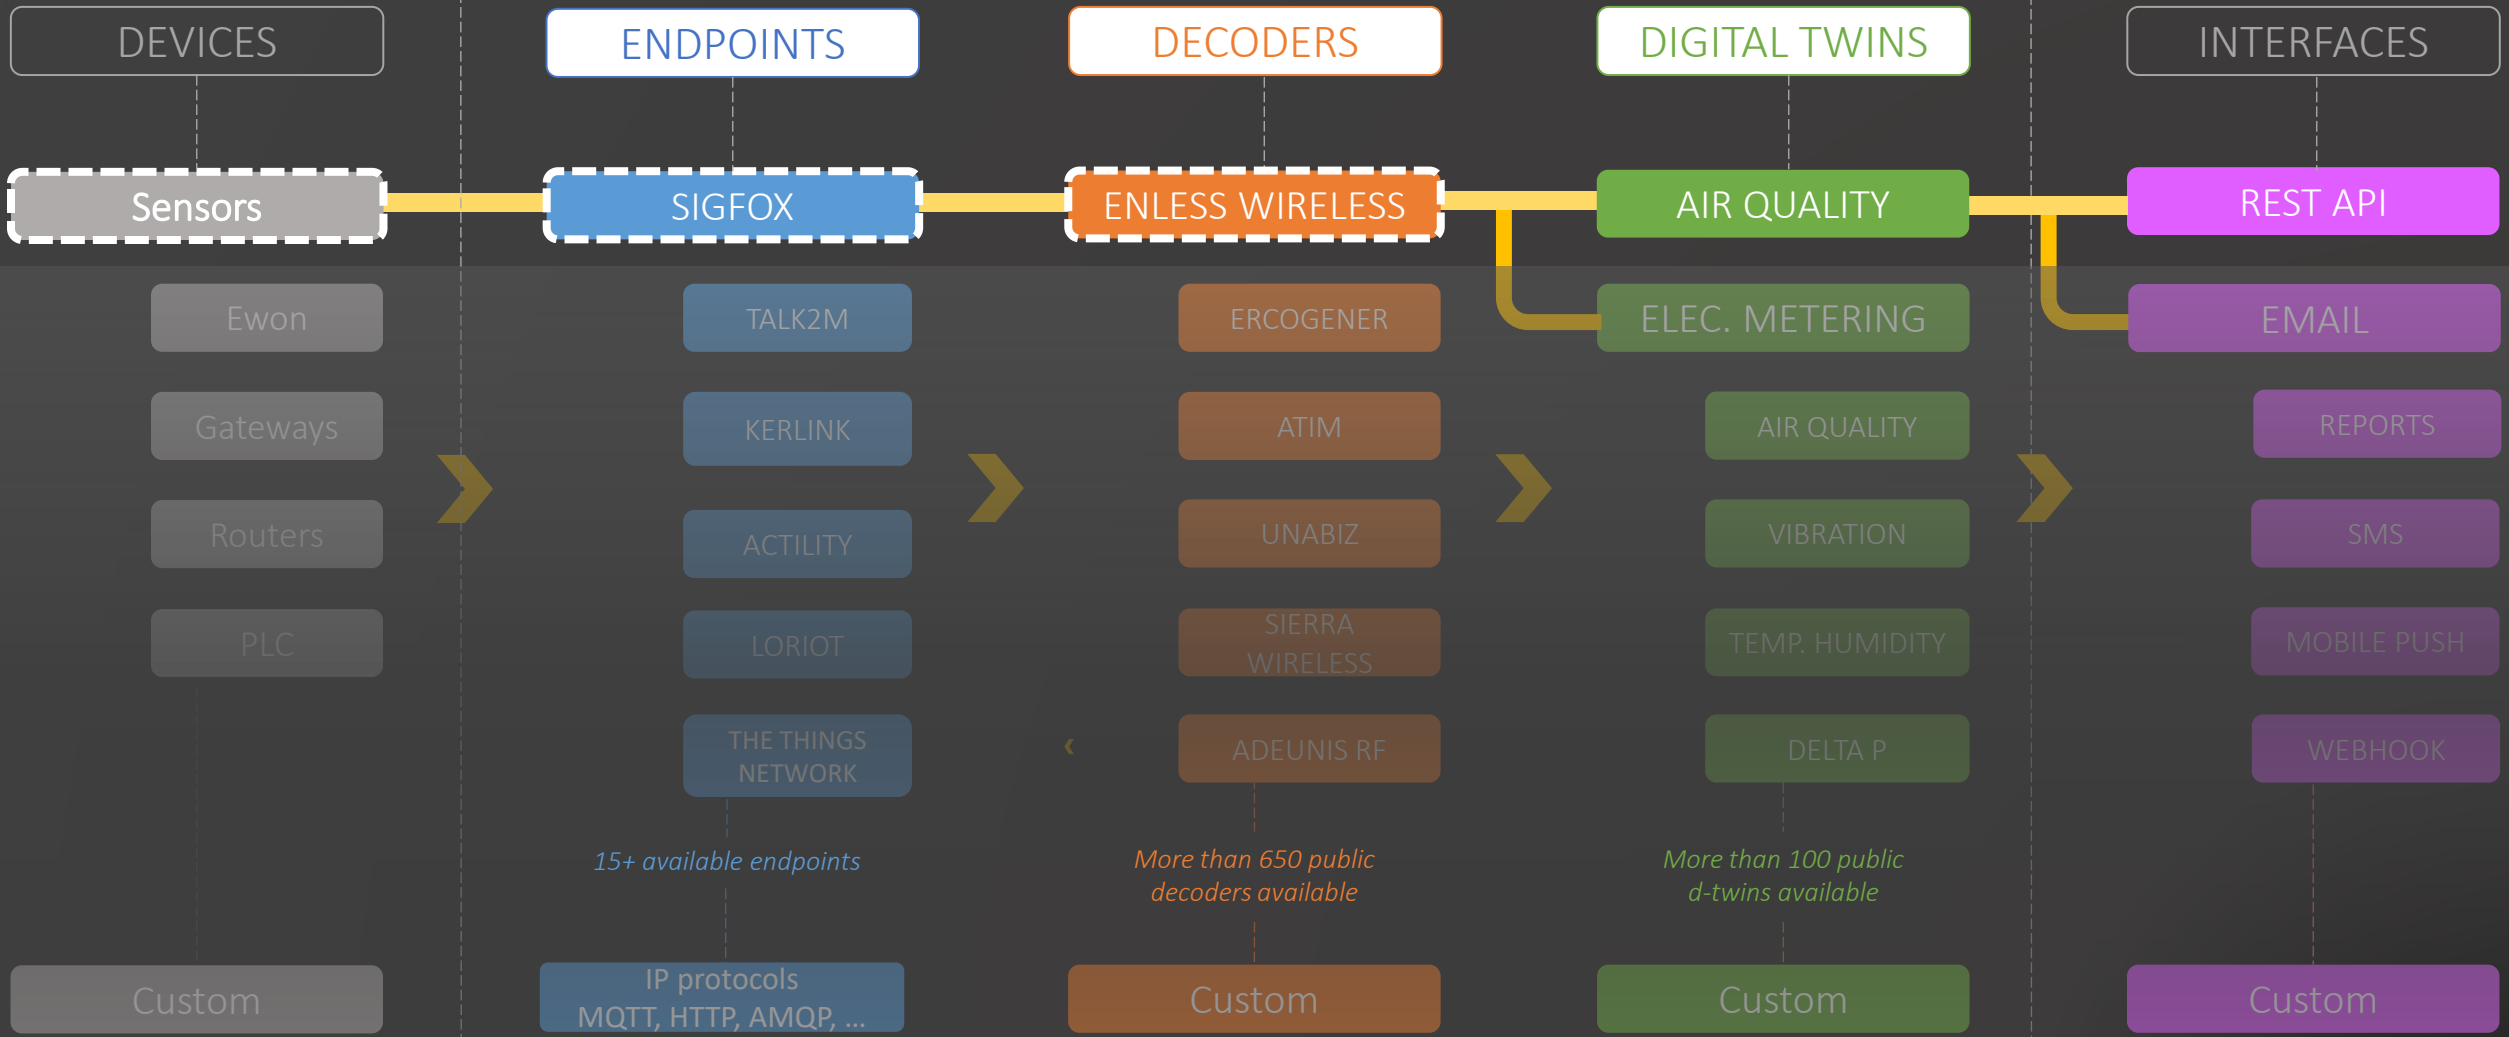

1 single platform to:
> Deploy your devices
> Deploy your use cases
> Monitor your fleet
> Control your devices
> Analyze your data

KHEIRON Service Platform

*IDE = Integrated Development Environment

Our solution > *Interoperability / Easy to deploy*

Deploy your end-to-end solution in 3 steps

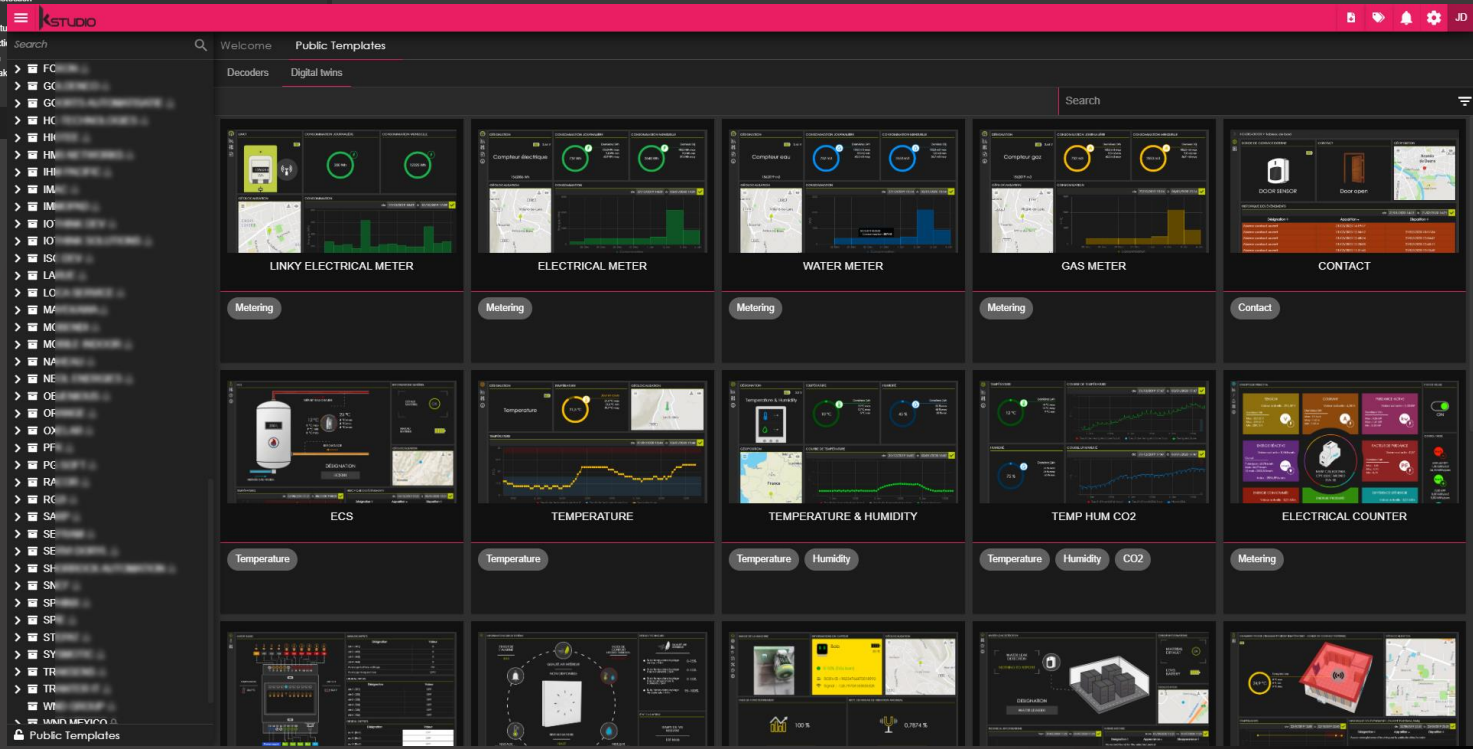

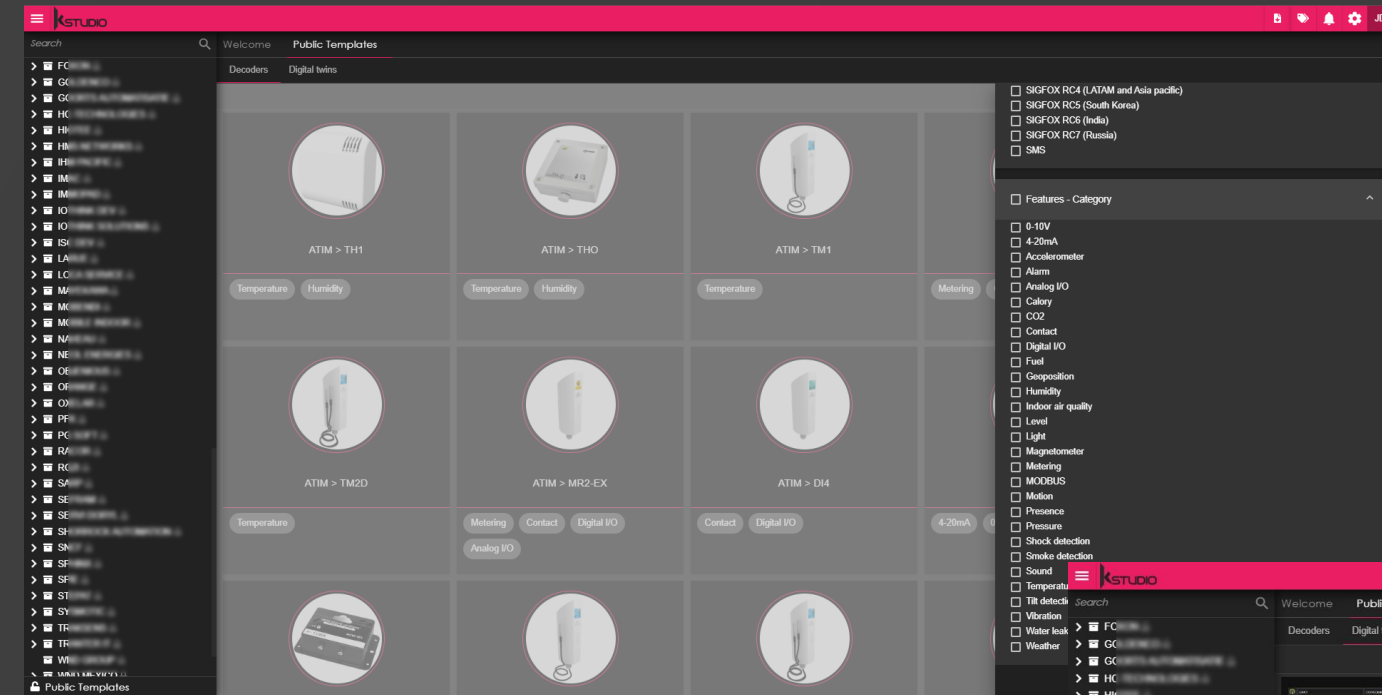

Devices library:

- Filter by brand, connectivity, feature
- Find you device according to your need
- Add your custom device on your own
- Online JavaScript & C# editor
- **650+ LPWAN devices and gateways**

Use cases library:

- **100+ on-the-shelves use cases**
- Design your custom and private library
- Toolbox to design/edit your dashboard
- Drag & drop feature
- No coding skills needed

Our solution > Your IoT platform and Mobile App under your own brand

Your domain name

Some examples:

FOR WHO?

DEVICE MAKERS

Startup or medium-sized companies

Presence,
Pulse,
Smoke detector,
I/O modules,
Soil moisture,
Air quality,
...

MACHINE BUILDERS

Power Generators,
Heat pumps,
Chillers,
Boilers,
Waste compactors,
Fridges,
...

SERVICE PROVIDERS

Facility Managers,
Consultants,
...

INTEGRATORS

System integrators,
Automation technicians,
Installers,
...

NETWORK OPERATORS

Cellular telco
LPWAN operators
...

WHAT FOR?

Common needs:

To market new recurring services
White label (own brand)
Multi-tenant

Specific needs:

- For all their devices
- Public use cases (library)
- Multilingual

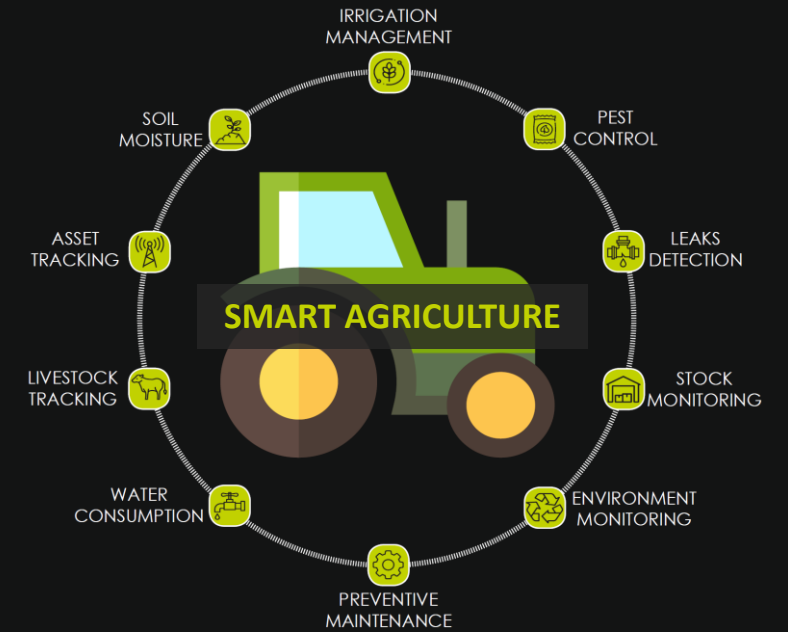

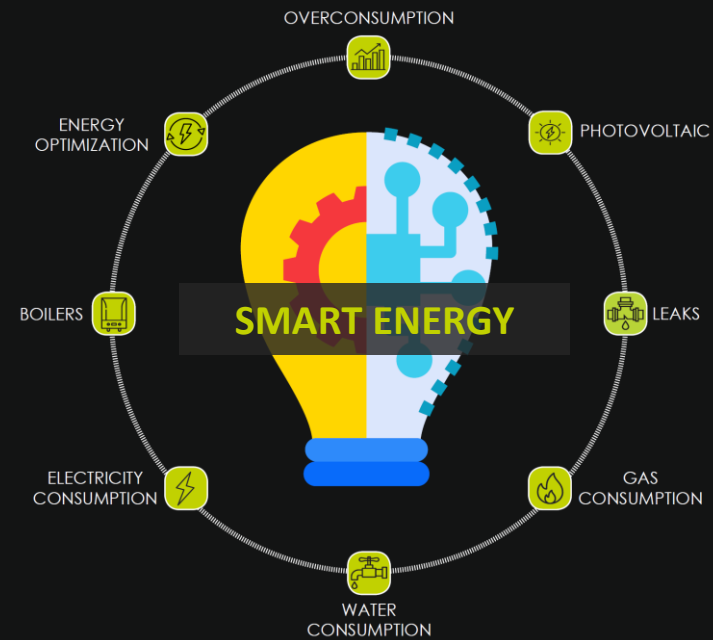

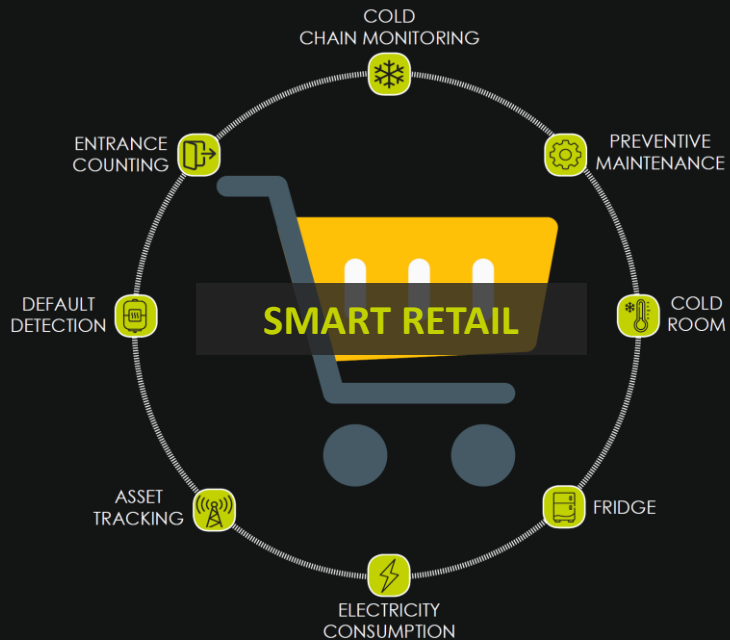

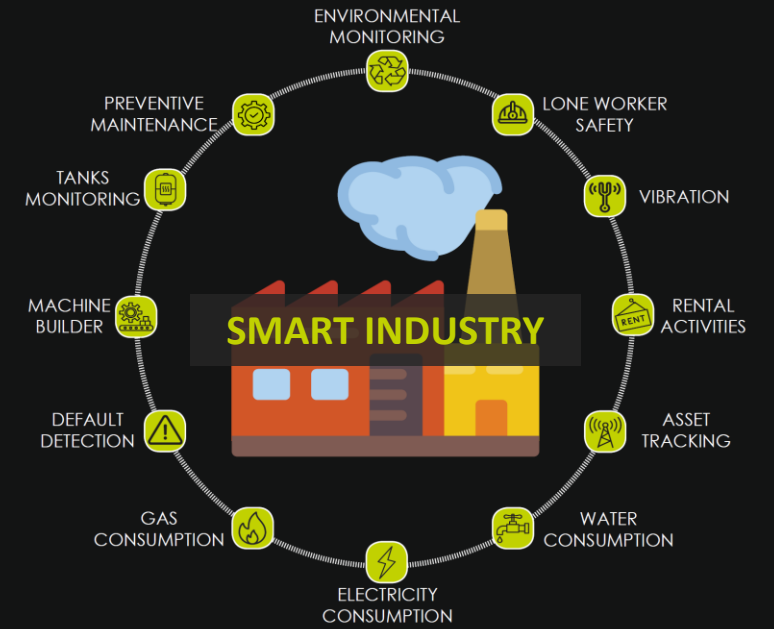

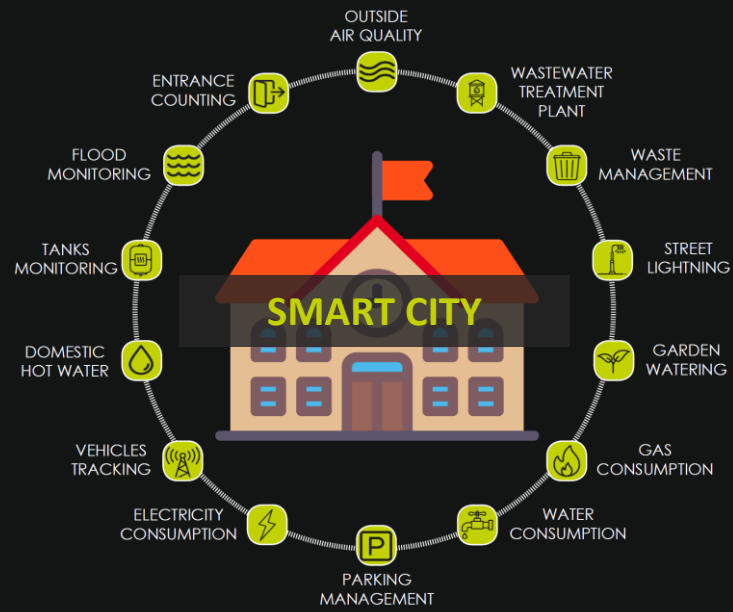

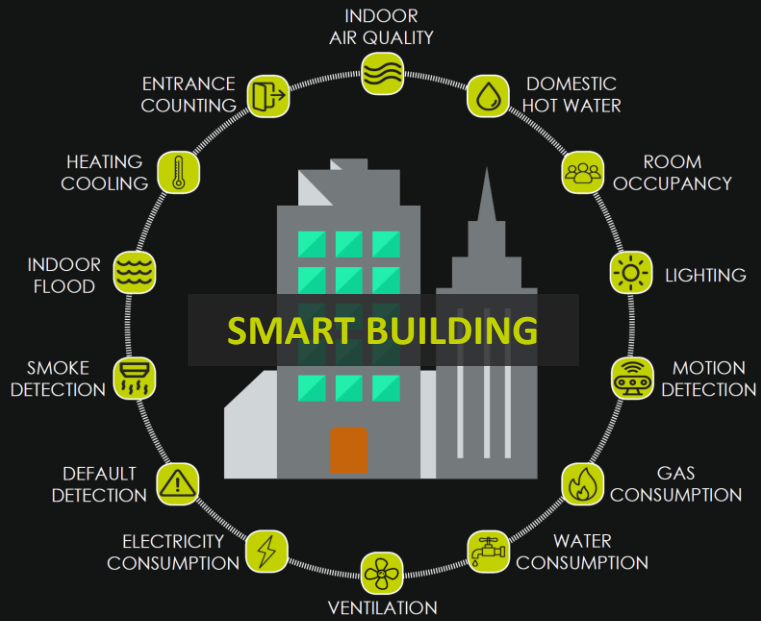

- Reduce maintenance costs
- Enhance operation
- Improve R&D
- Custom use cases (Studio)
- Multilingual
- Remote controls

- Reduce maintenance costs
- Public use cases (library)
- Public decoders (library)

- Custom use cases (Studio)
- Multi-sites
- Remote controls

- Public use cases (library)
- Public decoders (library)
- Custom use cases (Studio)
- Multilingual

Which markets? > Some examples

Available in **SaaS, private Cloud** for any kind of Cloud or **On-Premise** hosted on your own servers

Administration access for **multi-tenant** management
1 database and access per tenant

Your IoT platform for today ☺

No expensive licence cost (CAPEX), OPEX according to your needs

100+ use cases available in our public library for any kind of markets
650+ devices already decoded and available in our public library

7 languages already available
Ready for easy translation by yourself

Multi-sites
1 platform for all your use cases and installations

REST API to connect with third-party applications
(ERP, CRM...)

Not only to monitor, but **to control your devices!**

IoT Suite: Studio, Platform, App
Studio = IoT IDE (Integrated Development Environment)

« **Mass deployment** » tool for large projects

White labelling for Web App and Mobile App
Real white label, not a sub-domain of Kheiron

CASE 1 :

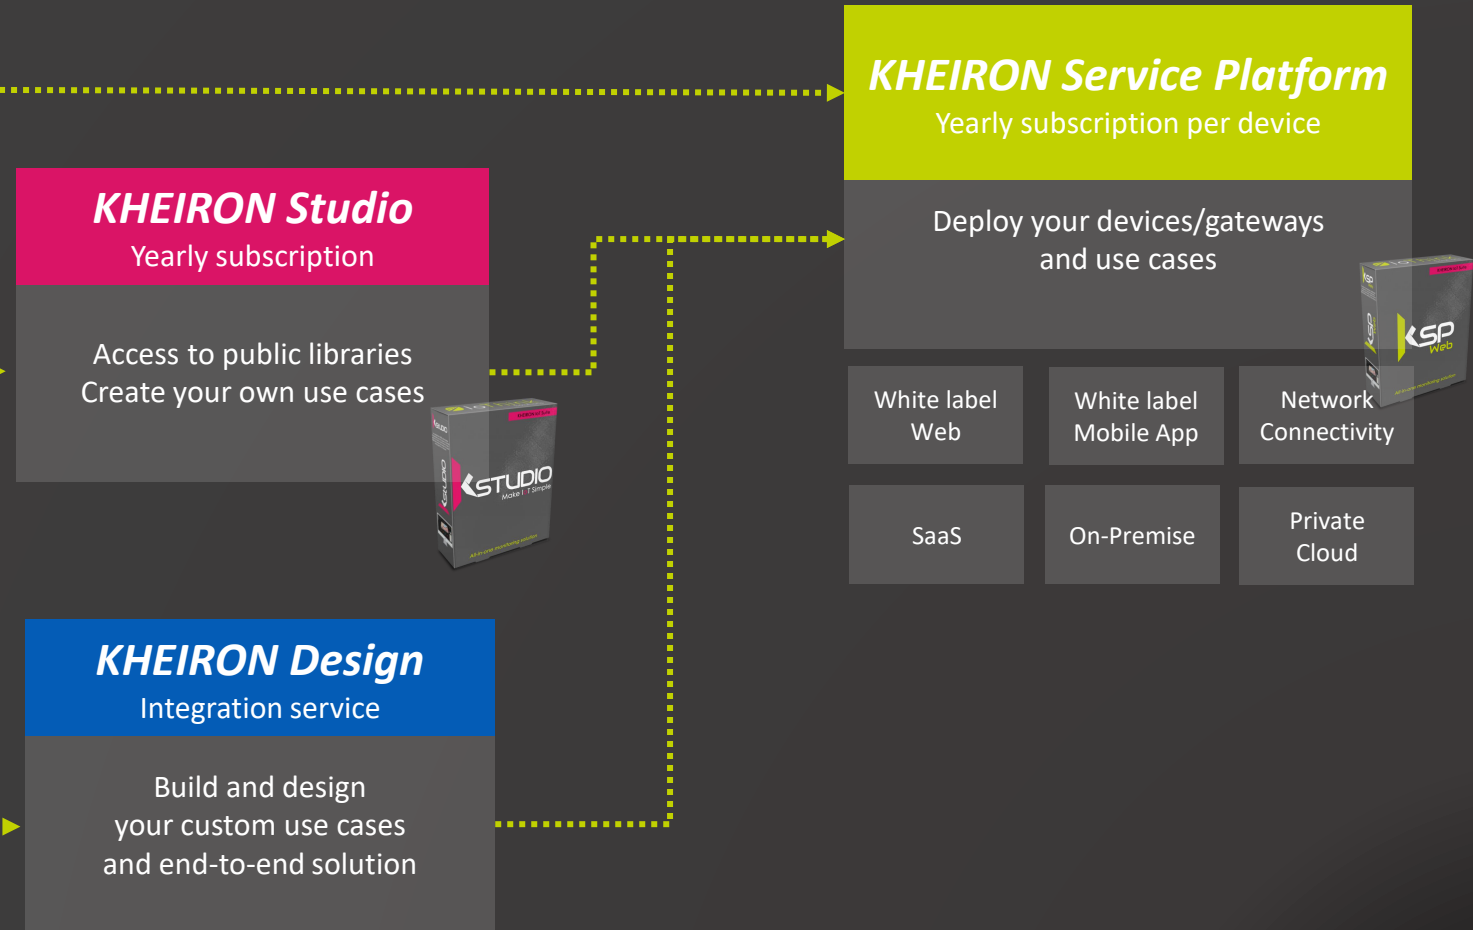

You want to use public use cases only?

CASE 2 :

You want to be autonomous in your custom use cases or become an Integrator Partner?

CASE 3 :

You need an end-to-end solution?

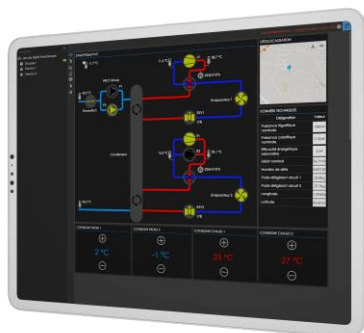

Integration team at ioThink
Or other integrator partner according
to the country and expertise

Thanks for your attention!

Contact us for a **one-to-one meeting**
for more information and talk about your project
