Harmonized Tariff Schedule Code Update for Select NXP Devices

### Description

NXP Semiconductors announces an adjustment to the import / export tariff codes, in-line with the Harmonized Tariff Schedule (HTS), for the devices associated with this notification. Some of the devices which had previously been classified as Transistors (HS 8541.21 or 8541.29), will now be classified as Integrated Circuit (8542.39), or Amplifier (8542.33). This change will have little to no impact on our customers, and is simply a correction of assigned tariff code.

Corresponding ZVEI Delta Qualification Matrix ID: SEM-AN-02

#### Reason

Alignment of Harmonized Tariff Schedule code with actual device type.

#### Identification of Affected Products

Product identification does not change

### Anticipated Impact on Form, Fit, Function, Reliability or Quality

No impact on form, fit, function, reliability or quality.

### Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please contact NXP "Global Quality Support Team".

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

**Name** Ron Hanson  
**Position** Import / Export Compliance  
**e-mail address** ronald.hanson@nxp.com

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.

Customer Focus, Passion to Win.

NXP Quality Management Team.

### About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.
