Product Discontinuation

PDN-ION-697-2017

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
ION - I/O and Networks	DNC	Product Discontinuation	Notify Distributors and Field	6/16/2017

Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review and acknowledge this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.

Description for Product Discontinuation

This notice is to inform you that the FL COM Server RS232 and FL COM Server RS485 line will be discontinued before end of this year. This line represents products that are 10+ years old – it was our first product line that provided conversion needs for our customers and it has provided us with many opportunities to learn and improve our product portfolio.

The discontinuation of the FL COM Server product line is not to be confused with the COM Server UNI and BASIC – those products will remain available for legacy support for the foreseeable future, as they are specified in multiple long-term projects.

We hope this discontinuation does not cause too many inconveniences and that the new product line offers more options of conversion for your needs.

Thank you and if you have any questions, please contact our tech support team at 1-800-322-3225

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	Yes

Product Discontinuation

Should you have any issues with the timeline or content of this product discontinuation, please contact Phoenix Contact using the information below. Customers should acknowledge receipt of the PDN within 30 days of delivery of the PDN; provided, however, that the failure to acknowledge receipt does not affect the product discontinuation or the effective date thereof.
