Description of change	<p>Edgeport/416, Hubport/4c and 7c, and Rapidport products have pairs of identical part numbers except for the power plug accessory. They have traditionally been split between a part number for North America and a part number for International (rest of world). As part of the effort to streamline our product offers, we are consolidating the part numbers into one. International plug kits will be included. Certifications are identical on each of the part number consolidations.</p> <p>In most cases, the international part number has been maintained. Customers that traditionally buy the North America parts will need to switch to the International part number.</p> <p>Please have customers begin ordering the replacement part numbers immediately.</p> <p>This is an ongoing effort to streamline our product offerings to focus on consistent product availability while maintaining our high quality.</p> <p>Standard warranty policy will apply to all LTB purchases.</p>
