HOLESAW, VARIABLE PITCH (1 1/8) STD PK 50

Bi-Metal Hole Saws

Cat No: 825B-1-1/8

UPC No: 783310298311

Description

- Cut through steel, tin, aluminum, fiberglass, wood and plastic
- Deep 1-5/8 IN (41.3 mm) cutting depth allows for cutting through 2 IN x 4 IN wood studs
- Extra-tough bi-metal blade we use the highest grade of tool steel to outlast competitor's blades. That beats premature saw replacement and saves you money
- Steam oxide finish no paint to gum up and slow cutting. The saw runs cooler for longer life and better performance
- Extra-thick backplate minimizes vibration for smoother, easier, less tiring cutting
- Made in USA

Specifications

- Application : For 3/4 Conduit IN
- Cutting Size : 1-5/8 IN
- D Chain : 4
- Hole Diameter : 1-1/8 IN
- Material : Bi-Metal
- Material Master Number : 50298313
- Package : 50/Standard Pack
- Pipe Tap Size : 3/4 IN
- Type : Variable Pitch
- Use With Quick Change Arbor No. : 2800
- Use With Standard Arbor No. : 37157, 37155 Or 38522
