

# USB-C to Gigabit Ethernet Adapter

With Anodized Aluminum Sleeves

- Connect your USB-C ready computers directly to the Internet
- Designed with anodized aluminum sleeves to minimize EM interference
- Plug and Play
- Mac NetBoot compatible
- Reversible USB-C connector lets you plug your cable into your device in either direction
- LED port-status activity
- Thunderbolt™ 3 port compatible

## Fast and Reliable Internet and Network Connection

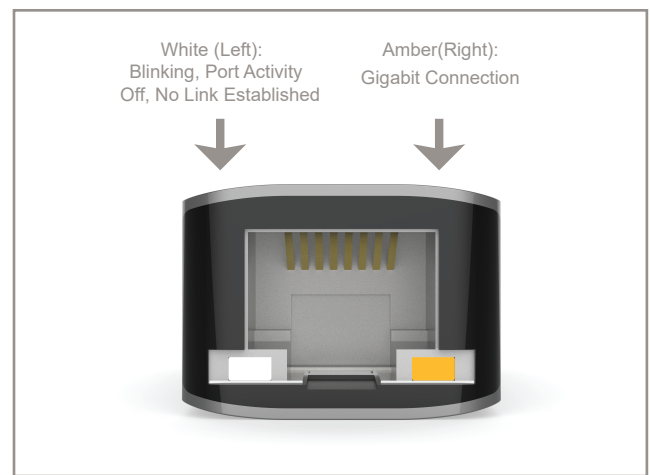

The EZQuest USB-C to Gigabit Ethernet Adapter lets your new MacBooks or any USB-C /Thunderbolt 3-ready computers connect directly to the Internet, when Wi-Fi is not available, or when a high-performance, sustained, and secure connection is required. This accessory is perfect for streaming movies, online gaming, or web browsing. You never have to worry about Wi-Fi dead spots when directly connected. The ethernet adapter is Mac NetBoot compatible.

## Plug and Play - No Driver Needed

Our Gigabit Ethernet Adapter is small, compact, and ready to go right out of the box without needing to install a driver. Simply plug one end into a Gigabit Ethernet cable and the USB-C /Thunderbolt 3 end into your new MacBooks or USB-C /Thunderbolt 3 compatible devices and you're ready to go.

## Anodized Aluminum Sleeves on Both Ends

Our USB-C /Thunderbolt 3 to Gigabit Ethernet Adapter is made with anodized aluminum sleeves on both ends to minimize EM interference.
