

Product Change Notification

TE Connectivity

Product Change Notification: E-20-012621

PCN Date: 09-SEP-20

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

To revise TCPN: 988208-000 - NAE-143-3

Description of Changes

Form change - minor visual dissimilarity in overall length, the new lamp is 2 mm longer.

failure mode image

Reason for Changes:

Manufacturing / Process Requirements. Due to changes in legislation, European suppliers have been phasing out halogen lamps for certain applications. As a result TE is working to ensure no disruption of product for our customers. Soon you will be receiving lamps that meet the EWX 24V 250W G6.35 specification but will exhibit a minor visual dissimilarity and a possible improvement in life expectancy when bulb is used with the IR1759 MiniRay Infrared Heat Tool product line. However the failure mode might be different refer attached image.
