Danger Shield Complete kits

SKU 103990021

The Danger Shield is an add-on for the [Arduino] micro controller board. It contains a variety of fun and useful electronic circuits that you can use to do fun and useful things. It is a fully self-contained shield. You plug it into your Arduino, and you can immediately start using it. No extra things to hook up, no external components. Just a really rad board ready to rock.

Some of the features of the board are:

- 3 x linear sliders w/ integrated LEDs (each independently hooked up to PWM)
- 03 x pushbuttons
- 2 x indicator LEDs (each with a PWM)
- 1 x piezo buzzer (for making noise!)
- 1 x temperature sensor
- 1 x light sensor
- 1 x knock sensor
- 1 x 7 segment LED (with shift register)
- power LED and reset button

Technical details

Dimensions	125mm x85mm x16mm
Weight	G.W 60g
Battery	Exclude

Part List

Danger Shield Complete kits	3
pushbutton	3
indicator LED	2
piezo buzzer	1
temperature sensor	1
light sensor	1
knock sensor	1
7 segment LED	1
