

Product Discontinuance Notice (PDN)

Doc Ref: PDN_HPI2101
Rev: 0
Notification Date: Sept 14th 2021

Dear Customer,

Tronics has successfully developed a new high performance inertial MEMS Accelerometer called AXO315 (p/n 3-A3150-A0), that, not only outperforms all key specifications of first generation AXO215 (p/n 3-A2150-A0) but is, as well, fully, package/pins & controls, compatible with older AXO215 making it, and related EVB, redundant.

As an immediate consequence, Tronics from today discontinues AXO215 (p/n 3-A2150-A0) and recommends to replace it with AXO315 (p/n 3-A3150-A0).

Product Description	High Performance Inertial MEMS Accelerometer, AXO215 p/n : 3-A2150-A0 & AXO215 evaluation board – AXO215 EVB p/n: 4-A2150-A0
Reason for discontinuance	Optimization of all key specifications on full compatible alternative High Performance Inertial MEMS Accelerometer: AXO315 (p/n: 3-A3150-A0) and AXO315 EVB3 (p/n 4-A3150-A0) Redundancy of: AXO215 (p/n: 3-A2150-A0) AXO215 EVB (p/n 4-A2150-A0) Datasheet MCD006-C

Product Replacement	<p>High Performance Inertial MEMS Accelerometer: AXO315 (p/n 3-A3150-A0) & AXO315 evaluation board - EVB3 (p/n 4-A3150-A0)</p> <p>Replacement parts available directly from TDK-Tronics Or Availability within TDK Tronics distribution network from Sept 2021</p> <p>AXO315 p/n 3-A3150-A0 Datasheet: MCD018-F</p>
Last Order Date	N/A
Last Ship Date	N/A
