

HEX NUT CAN WRENCH

2-in-1 versatility and performance tool

Can Wrench with Two Socket Sizes

Used to open telephone pedestal boxes and tighten binding post screws, Jameson's insulated Can Wrench has a high-visibility nylon handle with hardened alloy steel sockets. Thin walled sockets for access to tight places.

- 7/16" and 3/8" Sockets
- 1.25" Deep Socket Fits Over Long Binding Posts

Notched, Serrated Snips

Ideal for use in telecommunication, electronic and electrical wiring jobs, Jameson snips are manufactured for exceptional performance, Jameson splicer scissors are heat treated then ice tempered (cryogenically processed) for a longer lasting edge and precision ground for consistent quality.

Snip Grip® Ergonomic Handle

Increases cutting leverage while reducing hand and wrist fatigue

Splicer Skinning Knife

Straight style blade is molded into an easy-grip polymer handle that remains pliable in subzero temperatures. Blade is heat treated then ice tempered for a long lasting edge and is 20-25% thicker than comparable models.

Leather Pouch

Leather tunnel loop pouch slides on belt to conveniently hold can wrench, snip and knife.
