As a follow up, we would like to remind you that we will be ending production of our E61, E62 and E63 sub-miniature snap-action switches. These switches will be replaced with our DB sub-miniature snap-action switches. This PCN lists all part numbers being obsoleted. These part numbers will correspond with the cross list that was sent out last week. Again, standard items will be crossed, and specials will say "consult factory". Please work with your local rep, regional sales manager and the CHERRY support team to cross EOL products.

Purchase orders for the products listed below will be accepted until 12/31/13 with a ship date no later than 7/1/2014. Please note that all last time buys will be non-cancellable and non-returnable (NCNR).

This change will ONLY affect the following Part Numbers:
