

LED LIS-B1003

Life in Sync

Product Description

LED LIS-B1003 made to add simplicity, efficiency and color to every home, this Smart Wi-Fi LED bulb allows you to control your home's lighting from anywhere. Because no hub is required, your smart bulb will simply connect to your home's Wi-Fi to be effortlessly controlled with the free Life in Sync mobile app for smartphones and tablets (iOS and Android). With the tap of a finger, you can set your bulb to turn on or off around your schedule, choose between 16 million different color options, or create a colorful scene to revisit. Using simple voice command with Amazon's Alexa or Google's Assistant, you can dim your bulbs up or down, choose the perfect color temperature (2000K-5000K), or turn on or off without having to move. Sync the lights in your life with Euri Lighting's free Life in Sync app and Smart Wi-Fi LED bulb.

Estimated Energy Cost: \$1.20 per year

*Note: Design, features and specifications subject to change without notice. Some features may not be available on all models. For more information regarding dimmer compatibility please visit: www.eurilighting.com or call 1-888-743-5766
