

PRODUCT ADVISORY NOTICE

KEEPING YOU INFORMED OF PRODUCT CHANGES

To: All Customers, Sales Representatives and Distributors

Date: 3/20/2019

Subject: Change secondary sealing components on select 3K keypads

This Product Advisory Notice is to alert you that Grayhill is changing the secondary sealing components used in 3K 12 button CANBUS Keypads from machined plastic to injection molded plastic.

Please forward this notification to the appropriate person(s) in your organization.

Description of Change

Grayhill has invested in injection molds to produce the enhanced ingress protection components used on 3K CANBUS Keypads in demanding applications. Parts produced from this tooling have been demonstrated to meet Grayhill's requirements.

Reason for Change

Early production of enhanced ingress protection 3K keypads was realized with machined plastic components. This allowed Grayhill to verify the design effectiveness and quickly implement the enhancement on quantity shipments. The long-term solution plan always included a transition from machined plastic parts to molded plastic parts.

Effective Date

Grayhill will implement this change starting with production builds on or after April 15, 2019

Part Numbers Affected

This PAN affects all the part numbers shown below:

3K012-4RC3AG	3KYY1012-609
3K012-4RN3AG	3KYY1012-640
3K112-4RC3AG	3KYY1012-641
3K112-4RN3AG	3KYY1012-643
3KYY1012-373	3KYY1012-649
3KYY1012-374	3KYY1012-650
3KYY1012-580	

Action Required

No action is required by customers.

Please contact your Business Development Manager, if you have any questions.
