Product Notification

| **-PCN #:** PCN_20160115_SD_S-450_-STD_Housing.docx	**Rev:** 1.0	**Issue Date:** January 15, 2016

Type of Change: Component optimization

☒ minor / ☐ major   ☐ to require authorized approval / ☒ information

Detailed Description of Change:
Swissbit will introduce a new additional tooling for the SD memory card housing. This will improve the availability and get higher process stability. Improvement for manual pull out in host sockets with larger pull out cavity.

Old housing	New housing	Comment
		Larger cavity for better handling
		TOP view without label

Quality impact:
☒ minor / ☐ major / ☐ no

Reliability impact:
☐ minor / ☐ major / ☒ no

Reason for Change: Improvement of component availability & mechanical handling
