**【Schedule】**

ICs will change from the lot produced after January, 2020. First delivery timing depends on the stock situation of the current items.

## 【Change Procedure】

Wafer itself does not change, as the change is only test site.

The stock will be controlled by the production lot, and the change will be executed in the order of the consumption of the stock of each item.

## 【Other】

Regarding the reliability test, as there is no change of wafer, we are scheduled to conduct only the soldering resistance test of the blow surface mount type items.
