**Subject: Addition of suffix "SNP" to existing 470 series part numbers**

Please note that we would be adding the suffix "SNP" to the existing 470 series part numbers.

The reason for the addition of the suffix "SNP" is because we are now plating the terminations rather than dipping. There is no impact on solderability.

There are no changes to the form, fit and function of the fuse. There are no changes to the current electrical specifications.

Thanks;

Daniel Wang
