TE Connectivity

Product Change Notification: P-15-012201

PCN Date: 03-NOV-15

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Notification of Specification Upgrade for -130 Molding Material

Description of Changes

The purpose of this correspondence is to inform you of the change to increase the toughness of the material in terms of secant modulus and the addition of a flame retardant ingredient. Should you not wish to have these improvements, we will honor a last-time-buy purchase for any of our -130 molded parts during the grace period afforded by this Notification of Change (90 days). Purchase orders after this period will be filled with the improved material upgrade still referred to as -130. Thank you for your patience and understanding as we deal with keeping pace with our markets. These specification changes will be updated in Raychem world-wide technical specification RW-2008 upon the close of the 90-day notification period. Please contact your local TE sales representative to discuss any questions regarding this notification.

Reason for Changes:

Product improvement.
