

## Specification Sheet

Part Number: 156-02592

Robust fir tree design provides low insertion effort yet delivers exceptional retention strength in a 12 mm hole, for ease of use and reliable performance.

Heavy Duty T120 tie provides a 120lb (534 N) tensile strength to secure bundles up to 4" (104 mm).

Friction tab inside the fir tree allows the tie to sit in mount without falling out prior to installation.

PA46 nylon material provides great performance at up to 135°F continuous operating temperature.
