Subject: UTS size 8 Jam nut modification.

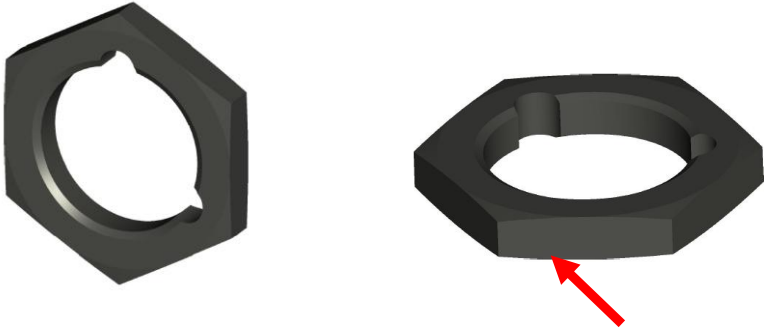

Product Part Number: UTS78__

Description of Change: The current version of the jam nut is rolled and it will be replaced by a machined version instead.

Current:

New:

Reason for Change:
Standardization with the rest of the UTS product range

Anticipated Impact on Form, Fit, or Function:

There will be no impact in regards to form or fit. However function will be slightly different, as there will be no way of attaching a lanyard to the chassis.

Implementation Date:

Immediate.
