Part number Change Notice

Dear valued customer,

Our Product Data Management has been upgraded. All Comair Rotron product part numbers have been changed according to the following rule.

Existing product part numbers have been upgraded from 6-digit numbers to 8-digit numbers and revision "A". The rule is displayed in the example below:

Old part number	New part number	
031842	19031842A	
		At the end of old part number add "A"
		At the begin of old part number add "19"

Please be informed that this is only a part number change but there will be no changes to the parts.

We will update all documentation and information that is related to part numbers. If you have any question please contact us.

With kind regards,

Stone Zhang
AMD Director
