LF PCN# A0012 Obsolescence Notification for Mini Blade Fuse 50 pc pack (LXN series)

Dear Valued Customer,

Littelfuse Inc., as the leading provider of total circuit protection solution with global commitment to providing the highest quality products, would like to notify you of the obsolescence of the Mini “LXN” packaging series.

The new replacement materials are also packed in the plastic “pillbox”, and contain the exact same fuses as the old materials. The only change is the plastic box for the new materials, which is now produced off a new mold in our Piedras facility.

The new materials will be available by September 1, 2010, and will convert from the old materials in a running change. We will continue to accept orders under the old part number through the end of this year, although you may receive the new material under the old part number once inventory of the old part number is depleted.

Please contact your local Littelfuse representative if you have any additional questions. We will be pleased to answer any questions you may have. Thank you for your continued support.

Best Regards,

Jenny Kiolbasa
