### Features

**Heavy-Duty Hospital-Grade Extension Cord is a Safe Solution for Medical Facilities** This hospital-grade power cord is designed for computers, mobile carts, printers, scanners, monitors and other compatible hospital equipment within a healthcare facility and outside patient-care vicinities. It features 14 AWG wire suitable for high power connections, making it a reliable solution for large server applications that require a higher-rated, heavier-gauge cable. The six-foot length allows you flexibility in placing equipment with respect to the power outlet.

**Designed and Tested to Strict Hospital-Grade Standards** This cord is tested to ANSI/UL 62 and 817 standards, as well as CAN/CSA C22.2 no. 21 and 49 standards, ensuring it's a dependable power solution for hospital environments.
