

**Notification**

Date: 12/01/2015  
To: CEL MeshConnect Module Customers  
Subject: ZBP20151201A ZFSM-101-3 no longer certified for Australia

This notification is to inform CEL customers that the C-tick mark will be dropped from the ZFSM-101-3 product and label effective 03/01/2016.

Australian regulations require that the C-Tick mark no longer be used after 02/29/2016. It is being replaced with a new RCM mark. However, as ZFSM-101-3 is not recommended for new designs, CEL will not be pursuing the RCM mark.

The Australian C-tick mark will not appear on the ZFSM-101-3 label after 02/29/2016.

What does this mean to CEL Customers?

- Hardware
  - No changes to the modules foot-print or pin-outs
  - No changes to the customer's system hardware
  - No changes to the modules performance
- Software
  - No changes to the customer's software are required.
- **Certification**
  - Customers will be required to obtain the RCM mark on their product. A test report on the ZFSM-101-3 can be obtained from CEL to support product level certification required by our customers.

If you have any inquiries, please contact your CEL sales representative.

Thank you for your business,

CEL Product Marketing
