

Tflex SF200 & Tflex SF200DF Application Note

Shelf Life:

Shelf life for Tflex SF200 is 2 years from date of shipment at the storage conditions specified below.

Storage Conditions:

Recommended storage conditions are 0-35°C at relative humidity of 50% maximum. Store in original product packaging until ready for use.

Tflex SF200 and Tflex SF200DF may experience slight fading and decrease in tack if exposed to light for an extended period of time (approximately 150 hours). These changes will not occur if the material is kept in its original packaging or kept away from excessive exposure to direct light. No significant change in material performance will occur as a result of these changes if they are noticed.
