

SCSI/Fibre Channel - Passive Internal SCSI Terminator 50 Position Male/Female Feed-Thru

MODEL NUMBER: **S103-000**

Highlights

- Active terminators include a voltage regulator circuit to compensate for fluctuations in the host adapter

System Requirements

- Internal SCSI 50 position ribbon cable (otherwise known as SCSI 1)

Package Includes

- Passive Internal SCSI Terminator 50 Position Male/Female Feed-Thru

Description

Tripp Lite's passive internal SCSI terminator provides the termination necessary at the end SCSI-1/SCSI-2 SCSI bus. This feed-thru terminator features 50SOK M/F connectors. Passive terminators do not include a voltage regulator circuit to compensate for fluctuations in the host adapter. Passive terminators offer a series of 220/330 ohm terminating resistors. Tripp Lite warrants this product to be free from defects in materials and workmanship.

Features

- All Tripp Lite SCSI products, regardless of the SCSI generation, meet the latest specifications of ANSI
- Tripp Lite offers a complete line of internal and external solutions for SCSI/RAID and fibre channel ranging from the very latest Ultra 320 to legacy SCSI-1 and every combination in between
- Tripp Lite warrants this product to be free from defects in materials and workmanship for life
