DESCRIPTION OF CHANGE: (Not Required for discontinuation)

This PCN is for running change being made to 23 AWG Cat 6A Plenum QuickNet Trunks. The series that will undergo this change is the QZP (UTP Cat6a) configurations.

Currently we use PUP6AM04 cable to construct the above mentioned 23 AWG Cat 6A Plenum QuickNet trunks cords. Moving forward we will replace PUP6AM04 cable with PUP6AV04 (new Vari-matrix) cable for trunk assemblies. Performance and applications remain the same. The visible change is the cable diameter being smaller for PUP6AV04 cable.
